WHY CHOOSE US

LEADING THE WAY IN B&B INNOVATION SINCE 2003

We provide efficient, user-friendly, and customizable solutions.

Our services meet and exceed the evolving expectations of B&Bs and accommodations.

We build beautiful and useful association websites - a perfect balance of function and form.

"

GuestServe's combination of technical expertise and creative problem-solving abilities has proved to be invaluable in launching and maintaining our new site.

ASSOCIATION SERVICES

STRONGER TOGETHER

One Platform for All Members

Unified Management: Bring together all your association's properties on one easy-to-use platform.

Central Availability: Quickly check room availability across all members in one place.

Extra Benefits

Revenue Opportunities: Optional ad space and local business directory features help generate income.

Real-Time Sync: Availability updates automatically— reduced manual steps to help with errors.

Starting At

Association Dashboard
$24.95/month or
$249.50 yearly prepay
Member Participation
$99.50/member per year +
$149.50 setup cost per member

COMPETITIVE EDGE

Compete with the Big Hotels

Corporate-Level Tech: Enjoy the same powerful tools used by large hotel chains, tailored for B&Bs.

Fast Searches: Guests get quick, accurate results for availability and pricing.

Custom Filters: Let guests filter by amenities to find the perfect property.

BENEFITS

Enhanced Guest Experience

Interactive Maps: Google Maps integration shows guests exactly where each property is located.

Beautiful Design: Bold, eye-catching pages that highlight the unique charm of every B&B.

Mobile Friendly: Fully optimized for mobile, ensuring a smooth experience for travelers on the go.

Automated Solutions

Booking Platform Integration: Automatically connects with Airbnb, Booking.com, VRBO, Expedia, and more to keep availability up to date.

Pooled Inventory: Boosts occupancy by allowing properties to share room availability, ensuring guests find options even if their first choice is booked.

Direct Links: Seamless connections to each property's website with up-to-date information.
